## **SCREENING and TOWN HALL SUMMARY:**

Our goal is to emphasize what's possible and shift the narrative for Black girls in this country. With your participation, we plan extensive outreach, proposed education initiatives, national Call-To-Action activities and impactful grassroots engagement (on the ground and social platforms). It is extremely important that our initiatives point the way for positive change, concentrating on first person testimonies from the girls themselves as well as offering concrete, practical guidelines from experts in the field for how educators, law enforcement and other adults interact with Black girls. Ultimately, the goal is to significantly impact society by reducing the dropout rates of Black girls and set them on paths to successful futures backed with the support they deserve.
